PLT tractor bale platform trucks

PLT tractor bale platform trucks

PLT tractor bale platform trucks are defined especially by their solid steel structure resistant to twisting and bending even in the most demanding conditions, perfect manufacturing and amply dimensioned high-quality components.

PLT bale platform truck with single axle

Technical parameters	PLT 5 N
Number of axles (pcs)	1
Maximum total allowable weight (kg)	7 000
Chassis platform	semi-trailer
Loading area length (mm)	6 000
Loading area width (mm)	2 400
Total length (mm)	7 720
Max total width (mm)	2 550
Speed limit (km/hour)	40

PLT bale platform trucks with two axles

Technical parameters	PLT 7	PLT 7 N	PLT 8	PLT 10 N	PLT 16 N
Number of axles (pcs)	2	2	2	2	2
Maximum total allowable weight (kg)	11 300	12 000	11 300	14 000	21 000 - 22 000
Chassis platform	trailer	semi-trailer	trailer	semi-trailer	semi-trailer
Loading area length (mm)	7 000	7 000	8 000	8 000 / 9 000	10 200
Loading area width (mm)	2 400	2 400	2 400	2 400	2 400
Total length (mm)	8 700	9 100	9 700	10 100	12 000
Max total width (mm)	2 550	2 550	2 550	2 550	2 550
Speed limit (km/hour)	40	40	40	40	40/60

PLT bale platform trucks with three axles

Technical parameters	PLT 14	PLT 22 N
Number of axles (pcs)	3	3
Maximum total allowable weight (kg)	18 000	27 000
Chassis platform	trailer	semi-trailer
Loading area length (mm)	10 000	10 200
Loading area width (mm)	2 400	2 400
Total length (mm)	12 000	12 000
Max total width (mm)	2 550	2 550
Speed limit (km/hour)	40	40/60
